

vPToken
Enabling Opportunities

PROJECT WHITEPAPER

2023

This document will give you an overview of the vPin Digital Ecosystem and some of the core features that power our Tokens and our community.

PREFACE

The mission of vPin ecosystem is to provide consumers with access to cryptocurrency-based financial, medical, agricultural, real estate investment services and opportunities. The main benefit of our digital infrastructure is the high level of security, ownership rights/claims that comes with the decentralization of assets storage, protection and authenticity. This provide a unique opportunity for our community to exchange or swap a variety of digital assets within our ecosystem.

In response to the advanced development of decentralized financial protocols (DeFi) and the growing demand for sustainable markets in lending, exchanges, derivatives, NFT and Gamefi, the vPin ecosystem algorithm cooperates with related decentralized wallets to provide one-stop aggregation and exchange community for consumers while providing developers with access to an open , distributed, unlimited and secured transaction environment

BACKGROUND

vPin was established in 2017. Since its establishment, we have continued to learn and grow in the crypto space, developing professional crypto wallets and DApps. We are committed to providing professional digital asset management tools and services

INTRODUCTION: WHAT IS VPTOKEN?

vPToken is an application token issued by vPin. It is an important token that promotes the development of vPin's Decentralized Digital Ecosystem. Based on our economic model, all participants and developers are encouraged to invest in the maintenance of the overall ecological network through the community governance of our Tokens.

TOKEN DETAILS

- ✓ TOKEN NAME: vPToken
- ✓ SYMBOL: vPT
- ✓ TOTAL SUPPLY: 400,000,000
- ✓ TOKEN NETWORK: Bep20
- ✓ DEPLOYMENT: Binance Blockchain

TOKEN BURN STRATEGY

For every verified member, we burn 1vPT for up to 100,000,000 vPT. Subsequent burning follows initial burn value divided by 2 for the next 100,000,000 vPT

ECONOMIC MODEL

Our economic model deployed two initial methods to earn vPT.

1. Verified Members (Trust Threshold Level 5 - TTL5) can partake in our proprietary exclusive vPT digital farming.
2. Semi-verified Members (Below TTL5) can get airdrops through early participation in product testing and community contributions.

MEMBERSHIP VALUE

The uniqueness of our community relies heavily upon its foundational structure. Access to the community requires a diligent and rigorous rite of passage that includes but not limited to the following:

1. Guarantor (Must possess a minimum Trust Level Threshold 5 on vPin)
2. KYC Level 1
3. KYC Level 2
4. KYC Level 3
5. KYC Level 4

Each level of KYC goes further to verify your identity and establish you as a trusted member of the vPin community. Each of these levels is unveiled to a new member during the onboarding phase.

The completion of these processes gives you the minimum community Trust Level Threshold of 5 which is required of you to become an active Verified Member who is then deemed qualified to onboard new members, standing automatically as their guarantor, which places you at the forefront of any direct or indirect consequences of both their negative actions and of those they guarantee

A NETWORK OF TRUST

The goal of this process is to create a closed group of connection which we termed a “Network Of Trust (NOT)” This inter-connectivity and relation-based network ensures that everyone within the Network Of Trust is accountable for their actions within the community. Understanding that every member is connected to each other by means of our closed grouping system, our members are more than happy to be a part of pure like-minded community of game changers like themselves.

vPToken (vPT) is the only ecological token in the whole vPin Digital Ecosystem. vPT is zero transaction tax point, and can be used in Medicon, PayMe, ARGNES AI, etc. It is indispensable in the vPin Digital Ecosystem

DEVELOPMENT COMMITTEE

The Development Committee is mainly responsible for promoting the development of the project and building the community. In the early stages, it will be comprised of a dedicated small governing team made up of community contributors, Token farmers, and stakeholders with a majority vote. The latter stage is entirely elected by the community.

All transaction fees for vPToken Swap will be regularly used to buy back tokens in the open market, and will be distributed proportionally to token stake holders and development committees

VPIN ROADMAP

ESTABLISHED CONFIDENCE

SOME CORE VPIN ECOSYSTEM BENEFITS

some of the many benefits members of the vPin community stand to gain

Real Estate

With Tokenization of properties, Investing in Real Estate no longer requires billions or physical presence globally

INVESTING IN REAL ESTATE

Property and asset ownership verification and share allotment are bundled up into vPT contracts which can hold an unlimited number of users at any point in time. Giving you publicly verifiable proof of ownership, direct access to asset proceeds without any middle-man structure and zero room for fraud. Members of vPin community can buy into any real estate property from any part of the world, starting from as low as \$1

Available On vPin

vee-pin.com

Access By Invitation Only

Price Start From
\$1.00

Agriculture and Food Distribution

vPin employs the power of Crowdfunding to acquire food stuffs and agricultural products in large quantities mostly directly from local farmers who are paid in bulk to enable them grow their farming and produce more products. The effectiveness of this logic cannot be limited to the following:

1. Food stuffs distributed within the participants are relatively cheaper compared to current market costs
2. Participants get fresh healthy products direct from the source, eliminating unsafe preservation methods and food tampering.
3. Participate for yourself or family members irrespective of where you are, using vPTokens

PREMIUM HEALTHCARE & INSURANCE

**VIRTUAL
ASSISTANCE**

**INQUIRIES AT
ANY TIME**

**PERSONAL
CARE**

As a member of the vPin Network of Trust, vPin gives you access to the following benefits on MEDICON

VPIN
PRIVATE OFFER

ABOUT VPIN INITIAL PRIVATE OFFER

Our Initial Private offer of 250,000 vPT will run from April 30th 2023 to October 30th 2023. During this time, 1vPT will be sold for \$0.75. There will be 2 more private offers after this which will see our Tokens sold for \$1.25 in the second private offer and \$2.00 in the third private offer. What this means is that those who purchase our Tokens now stand a chance 150% profit by the end of our third private offer. Since all Tokens offered will be associated with real estate properties, holders of our Token will also benefit from real estate revenues shared according to percentage calculated by your total Token worth as against the entire cost of the available properties

Thank You!

It has been our pleasure taking you on this brief overview of our community, goals and mission. It is our hope that going through this document will give you an insight into the future of possibilities that are just within our collective reach. We love hearing from you, use the info below to reach us for any question, comment or remarks you may have.
